GREENGUARD® GOLD CERTIFICATION

Hush Acoustics has achieved full GreenGuard® Gold sustainability certification, a mark of excellence that ensures our products meet strict standards for low chemical emissions, promoting healthier indoor air quality.

This recognition gives architects, designers, and consumers confidence in choosing Hush for environmentally responsible solutions. Beyond sustainability, Hush’s felt products offer excellent sound-absorbing properties, making them ideal for creating quieter, more comfortable spaces.

SUSTAINABILITY

Manufactured from 100% PET(60% recycled material), our felt products demonstrate our commitment to both environmental stewardship and functional design, contributing to a greener and quieter future. It comprising of flame-retardant fiber as new material ensuring ASTM E84 class A certification. The high strength of PET panels in comparison to its weight is the key to its superior energy efficiency.

FUNGAL RESISTANT

Independently tested by EMSL Canada, Hush P.E.T. felt showed zero mold growth under ASTM C1338 laboratory conditions, confirming exceptional durability.

HOW TO SPECIFY

1. Select Size

See [page 4](#) for full size chart

2. Select Pattern or Prepare Artwork

Dark Spruce

White Brick

White Oak

Whitewash

Custom Print

** Please Note; All mural options are printed on our Snow Element Colour*

Murals

Before installation, unpack and lay out all panels in their final location under the intended lighting conditions (natural and/or artificial). Review the panels from typical viewing angles to confirm the most visually pleasing arrangement and ensure the colors and finishes meet expectations before installation.

INSTALLATION INSTRUCTIONS

1. Locate the back of the panel.

(Note; the back of the tile will have no beveled edges).

2. On the back of the panel, starting at the top corner, apply a bead of adhesive that is approximately 1/4" wide.

3. Continue the bead of adhesive across the width of the panel.

4. Working quickly, complete the panel in a back-and-forth pattern as shown below.

5. Your panel is now ready to be installed on the wall in the desired location.

(Please note that the panel should be mounted on the wall within 60 seconds of applying adhesive).

6. With the panel located on the wall, apply firm pressure evenly over the entire surface of the panel and hold it in place for 30 seconds. The panel is now installed. Repeat steps 1-6 for all remaining tiles.
