GREENGUARD® GOLD CERTIFICATION

Hush Acoustics has achieved full GreenGuard® Gold sustainability certification, a mark of excellence that ensures our products meet strict standards for low chemical emissions, promoting healthier indoor air quality.

This recognition gives architects, designers, and consumers confidence in choosing Hush for environmentally responsible solutions. Beyond sustainability, Hush’s felt products offer excellent sound-absorbing properties, making them ideal for creating quieter, more comfortable spaces.

SUSTAINABILITY

Manufactured from 100% PET(60% recycled material), our felt products demonstrate our commitment to both environmental stewardship and functional design, contributing to a greener and quieter future. It comprising of flame-retardant fiber as new material ensuring ASTM E84 class A certification. The high strength of PET panels in comparison to its weight is the key to its superior energy efficiency.

FUNGAL RESISTANT

Independently tested by EMSL Canada, Hush P.E.T. felt showed zero mold growth under ASTM C1338 laboratory conditions, confirming exceptional durability.

WARRANTY

2 year limited warranty. See F.A.Q. page on our website for more information.

HOW TO SPECIFY

1. Select Design

2. Select Size

See [page 4](#) for full size chart

3. Select Colour

Element

Wood Grains

Concrete & Stone Grains

Peak

Before installation, unpack and lay out all panels in their final location under the intended lighting conditions (natural and/or artificial). Review the panels from typical viewing angles to confirm the most visually pleasing arrangement and ensure the colors and finishes meet expectations before installation.

INSTALLATION INSTRUCTIONS

1. Identify the mounting points on the back of the Peak panel.

2. Place a pointed transfer clip on each of the mounting points as shown below:

3. Now position the panel in the desired location on the wall, press the panel firmly against wall - only press in the locations of the pointed transfer clips. The clips will leave small 'dents' on the wall, this will indicate the required location of the mounting clips.

4. Fasten the mounting clips to the wall, using applicable screws/anchors necessary for your wall substrate.

5. Remove all the pointed transfer clips from the back of the Peak panel, the panel can now be placed on the wall, aligning the mounting points on the panel with the mounting clips on the wall.

6. Ensure that the panel is firmly pushed into place by pressing the panel against the wall in the locations of the mounting clips.

Colour Options

PLEASE NOTE: The images are only a sampling of the colours. Order a physical colour sample to obtain an accurate representation of our acoustic colours.

ELEMENT

					
SUNFLOWER	APRICOT	WINE	CHERRY	TAMARIND	SALMON

COLOUR MATCH SERVICES

Can't find the tone you're looking for?

Hush Acoustics' felt Colour Match services enhance architectural projects with rich visuals and tactile appeal, whether for panels, murals, or other design applications. Our felt brings depth and sophistication to any space, offering a customizable and memorable design element that elevates the overall experience.

With advanced equipment, we produce high-resolution, colour-accurate results that capture subtle gradients and fine textures, all while maintaining acoustic performance. Every Colour Match is carefully managed by our Senior Graphic Designer to ensure that the final output closely aligns with the designer's original vision.

Commonly Matched Materials (matte finishes only):

Wall Paints

Dulux, Benjamin Moore, Behr, and other popular brands

Fabric

From linen to wool, we match not just the colour, but also the texture in most of the cases

Wood Laminates

WilsonArt and other popular brands

Pantone® Hues

We simulate your company's brand tones using the Pantone® Uncoated palette

Stones

We can simulate a wide variety of stone types based on your needs

Generic Textures

Get in touch with our Acoustic Specialists, we will be glad to assist you
